ZAPATA FORCES CAUSE ANXIETY

Washington Officials Fear Attack on Mexico City.

REBELS MOVING SOUTHWARD

General Carranza Is Hurrying Troops Toward the National Capital to Assist in Maintaining Order—Former President Huerta May Sail From Puerto Mexico Tuesday.

Washington, July 20.—While government officials here feel that the Mexican problem rapidly is shaping itself for solution and that the Constitutionalists and the Carranza government soon will reach an agreement for the establishment of a new administration much apprehension is manifest over the possible operations of the Zapatista forces.

Dispatches from Mexico City and Vera Cruz which declared that the followers of Zapata are dangerously near the capital are confirmed by advices to the state department. Officials here for some time have been cognizant of the strength of the Zapatista troops, but the American government has been able to exert its influence with Zapata to prevent an attack on Mexico City.

Emissaries from General Carranza are now in communication with Zapata and it is hoped through these parleys to bring the military operations of the revolution under one head.

Constitutionalist forces are being hurried southward to help maintain order at the capital.

AT THE PANAMA EXPOSITION

General Villa Wants Mexico to Be Represented.

El Paso, Tex., July 20.—Mexico will participate in the Panama-Pacific exposition in San Francisco next year, if the influence of General Villa can accomplish that end.

"I am highly in favor of my country being represented at the exposition," said General Villa in Juarez, "and I will use all the influence at my command to see that Mexico takes part in it."

General Villa expressed himself as anxious to show the United States the Constitutionalists appreciate this country's attitude in the recent struggle.

HUERTA TO SAIL TOMORROW

Former President and Blanquet Will Leave on German Gunboat.

Puerto Mexico, July 20.—According to the latest reports former President Huerta and his party expect to leave here Tuesday. Generals Huerta and Blanquet, accompanied by three or four aides, will sail on the German cruiser Dresden. The others will go on the steamer Mexico of the Mexican Navigation company, which it is said has been chartered for this purpose.

The victim, George A. Pingree, superintendent of the Denver Alfalfa and Mining company, received five bullets in his body, two over the heart.

ABERDEEN DRIVING IDLERS FROM CITY

Police Stop Train and Force Men to Walk Other Way.

Aberdeen, S. D., July 20.—The police have the situation well in hand with regard to the idle I. W. W. agitators. A plan of action was laid out and all day a large force of men was busy driving the unemployed out of the city and into the country, where they are needed. Meanwhile agitators were held in jail and kept from endeavoring to conduct more street meetings.

A large majority of the men are harvesters who have come here for work, but they have been stirred up to a point where Saturday's violence broke through the agitation of the speakers.

A train from the south carrying nearly 600 men were stopped by the police two miles out of the city and all the men were made to leave it and go back by foot in the direction from which they had come.

Hobos numbering from twenty up are being herded and dispatched on each train that leaves the city. When no train is leaving they are made to walk.

VICE DISTRICT MUST GO

Chicago Health and Building Departments Will Act.

Chicago, July 20.—The extermination of the old South Side segregated district, where one policeman was killed and three wounded in a revolver fight Thursday night, is to be effected by the health and building departments.

M. L. Funkhouser, second deputy police superintendent, made the announcement.

Funkhouser said inspectors from both departments had been assigned to work under him and will be instructed to pry into every nook and corner of the old buildings comprising the former district.

CONGRESS WANTS TO ADJOURN NOW

Drastic Methods Necessary to Keep Quorum in Senate.

TEST PRESIDENT'S POWER.

Republicans May Refuse to Stay in Washington and Hear Dull Debates on Legislation Which, They Say, the Country Does Not Want—Wilson Refuses to Yield an Inch, However.

By ARTHUR W. DUNN.

Washington, July 20.—[Special.]—Drastic methods may have to be adopted to maintain a quorum in the senate. Many Republicans have announced that they will not stay here longer simply to maintain a quorum when they have no responsibility to pass legislation which they do not approve and which they say the country does not want.

One great difficulty in using force to obtain a quorum is that senators who are compelled to be present will insist that others shall also remain, not only in Washington, but in the senate chamber. And there is little more irksome duty than to stay six or eight hours in the senate listening to a dreary debate in which there are not the least elements of interest.

Test the President's Power.

The power of the president is going to be tested to its utmost during the rest of the summer. It is his will which has kept congress in session against its will. There are Democrats who do not believe in his program, and several have had independence enough to object to the provisions of the bills for trusts which he has approved, but they have also opposed him on other matters.

The president simply thinks these men are "imperfectly informed" or that they have not understood the situation. Absolutely confident of his own position, he is sure that error must be with the other fellows.

Many times there have been symptoms of revolt, but in the end the power of the president has been acknowledged. Such may be the case in the present crisis.

Virginia to Massachusetts.

It was a fine tribute which Congressman Montague paid to Massachusetts when the Salem appropriation was considered in the house. Montague was formerly governor of Virginia. He said that Massachusetts was not only a "historic but romantic commonwealth." He said also that there was a time when constitutional objections would have been raised to making an appropriation of this kind, but he was glad that the time had passed when such an objection could be raised to government aid to people in great distress.

Wanted All of It.

Jim Mann had been opposing a proposition made by Chairman Fitzgerald of the appropriations committee. He argued for a time and flatly contradicted Fitzgerald's statements, but finally concluded that he was wrong and Fitz was right and apologized, saying: "I have often found the gentleman from New York to be acute, indefatigable, intelligent and trustworthy."

Here he paused, and Fitzgerald said, "If there is anything else I would like to have it."

"I think you are right and will vote with you," added Mann.

Punching a Bill.

The river and harbor bill comes in for quips and comment quite frequently in the senate. There was a question as to whether the trade commission bill or the river and harbor bill should be first considered. "In the natural logical sequence of things," said Senator Chapp of Minnesota, "we ought to have avenues of trade before we have a commission to regulate trade, and the river and harbor bill should come first."

"If trade is to be by water the river and harbor bill will not help much," responded Senator Kenyon of Iowa, who is opposing the bill.

Stay With the President.

"It is the duty of congress to stay right here until this legislation is passed," said Hoke Smith, of Georgia. "Washington is not such a bad place in summer. We have not been uncomfortable. There have been hot days, but we have got along."

The president does not give attention to comfort. That does not concern him. The president is determined that a Democratic congress shall carry out a Democratic platform. Trust legislation is a big part of that platform.

Appropriations Delayed.

When an irresistible force meets an immovable body what is the result? That question occurs in the deadlocks between the senate and house over a number of appropriation bills. For months these bills have hung up in conference because the conferees cannot agree and neither will back down.

Rather trivial are some of the disagreements. One is whether mileage of congressmen and senators shall be 5 or 20 cents a mile. Another is whether one of the senate employees shall be paid a few thousand dollars for damage to his property by reason of a street improvement in Washington. If these questions could be settled two big appropriation bills would be passed and sent to the president.

Beggars in China are taxed and have districts allotted to them in which to make appeals for charity.

FENCE FEUD PROVES FATAL TO THREE

Fourth Wounded Seriously When Old Enemies Meet.

Weston, W. Va., July 20.—A dispute over a fence culminated in a shooting affray at Allingdale, in which three men were killed and another was wounded seriously. The dead are John Mammon, Joseph Fletcher and Ernest Bailey, farmers. Maston Mammon was wounded. Patrick Dorrill, a brother-in-law of Fletcher, was arrested charged with being a participant.

The Mammon and Fletcher families had been at odds over a fence between their farms for several years. The ill feeling was intensified several weeks ago when Mrs. Fletcher was beaten by unidentified men. The two Mammons and Bailey met Fletcher and Dorrill and both parties opened fire.

Charred Bodies Found in Ruins of Log Cabin.

LABOR STRIFE IN ARKANSAS

Mine Company Employee Says That After Last Friday's Battle He and Six Other Men Were Taken Prisoners and That He Saw a Man With a Rifle Shoot the Two Mine Watchmen.

Fort Smith, Ark., July 20.—Finding of charred fragments of the bodies of two men in the ruins of a log cabin and reports of an attempt to destroy the surface workings of another mine owned by the Beache-Denman Coal company were developments in the conflict between strikers and non-union coal miners and other company employees in the Hartford valley coal fields.

The discovery of parts of two skulls and human bones explains, it is believed, the disappearance of J. W. Sylesberry and John Baskins, mine guards, after Friday's battle at Prairie Creek and tends to confirm a statement sworn to by Sam C. Thomas, a company employee, that he witnessed their execution.

He and six other men, he said, were taken prisoners after a six-hour battle at the creek and escorted to a hut. About ten feet from the hut, Thomas declares, a man opened fire with a rifle, killing Sylesberry and Baskins. The statement declares the men also attempted to kill Thomas, but other members of the party interceded. The five other captives were set at liberty, according to Thomas' narrative. It is reported the bodies then were placed in the cabin and the torch applied.

A grand jury will begin an investigation at Greenwood, the county seat. At the request of Paul Little, prosecuting attorney, warrants were issued for the arrest of a number of men alleged to have participated in the attack on the Prairie creek mines on Friday. The warrants charge murder, arson and rioting.

Stay With the President.
"It is the duty of congress to stay right here until this legislation is passed," said Hoke Smith, of Georgia. "Washington is not such a bad place in summer. We have not been uncomfortable. There have been hot days, but we have got along."

The president does not give attention to comfort. That does not concern him. The president is determined that a Democratic congress shall carry out a Democratic platform. Trust legislation is a big part of that platform.

Appropriations Delayed.
When an irresistible force meets an immovable body what is the result? That question occurs in the deadlocks between the senate and house over a number of appropriation bills. For months these bills have hung up in conference because the conferees cannot agree and neither will back down.

Rather trivial are some of the disagreements. One is whether mileage of congressmen and senators shall be 5 or 20 cents a mile. Another is whether one of the senate employees shall be paid a few thousand dollars for damage to his property by reason of a street improvement in Washington. If these questions could be settled two big appropriation bills would be passed and sent to the president.

Chinese Beggars.
Beggars in China are taxed and have districts allotted to them in which to make appeals for charity.

MME. CAILLAUX.

Placed on Trial for Killing French Editor.

MME. CAILLAUX CONFIDENT

Her Trial for Killing Edieor Begins at Paris.

Paris, July 20.—Madame Caillaux is a prisoner in the Conciergerie, in the lower part of the Palais de Justice, where she occupies a cell adjoining that once occupied by Marie Antoinette. She was transferred to the Conciergerie from St. Lazare prison where she had been held since her arrest for the killing of Gaston Calmette, editor of the Figaro. The trial began today.

Madame Caillaux is maintaining a calm demeanor and expresses great confidence in the outcome of the case.

FENCE FEUD PROVES
FATAL TO THREE

Fourth Wounded Seriously When Old Enemies Meet.

Weston, W. Va., July 20.—A dispute over a fence culminated in a shooting affray at Allingdale, in which three men were killed and another was wounded seriously. The dead are John Mammon, Joseph Fletcher and Ernest Bailey, farmers. Maston Mammon was wounded. Patrick Dodrill, a brother-in-law of Fletcher, was arrested charged with being a participant.

The Mammon and Fletcher families had been at odds over a fence between their farms for several years. The ill feeling was intensified several weeks ago when Mrs. Fletcher was beaten by unidentified men. The two Mammons and Bailey met Fletcher and Dodrill and both parties opened fire.

MRS. CARMAN LEAVES HOME

Suspect in Bailey Killing Will Remain in Seclusion.

Freeport, N. Y., July 20.—Mrs. Florence Conklin Carman, under indictment for manslaughter in the first degree in connection with the killing of Mrs. Louise Bailey, left her home here and is not expected to return until late in the fall for her trial. Mrs. Carman was accompanied by her husband, Dr. Edwin Carman, and their nine-year-old daughter Elizabeth.

They will go to Lumberville, Pa., where Dr. Carman owns a small farm. Mrs. Carman, it is understood, will remain in seclusion on the farm until the time of her trial.

Greensburg, Pa., July 20.—While a crowd of armed and excited men surrounded the jail at Harrison, near here, making threats against Arthur Alston, a negro, fifteen years old, fifteen members of the state constabulary spirited the prisoner away and brought him to the county jail here. Colorado Miners File Brief With House Committee.

Washington, July 20.—Asking constructive and remedial federal legislation attorneys for the striking miners in the Colorado coal fields submitted their brief to the house mining committee in reply to the operators.

John D. Rockefeller, Jr., was attacked in the miners' statement as "the industrial head of the United States." His influence on the "Colorado coal situation is practically decisive and controlling," the brief said.

General Chase of the Colorado militia was declared to be biased and partial, and the militia was said to be made up of friends of the operators.

COUPLE IN SUICIDE PACT

Take Poison in Park Because They Cannot Marry.

Lafayette, Ind., July 20.—As the result of a suicide pact said to have been entered into a few days ago Miss Grace Plant of Delphi, Ind., and Emil Beuhrer of Toledo, O., are in a critical condition at a local hospital, each having swallowed a quantity of poison in a park near here. Beuhrer, while on the way to the hospital, said he and the girl agreed to end their lives together. They could not marry because Beuhrer has a wife and three children.

FIVE SHIPS WRECKED
IN VIOLENT STORM.

Halifax, N. S., July 20.—Two steamers, two large schooners and a barkentine were wrecked on the Nova Scotia coast in a violent storm, rain, fog, thunder and lightning accompanying the gale. There was no loss of life, but it is unlikely that any of the wrecked vessels will be saved.

DISPUTE OVER POKER GAME

Three St. Louis Negroes Killed in Shooting Affair.

St. Louis, July 20.—A dispute as to whether a poker game in a "lido" club was conducted honestly resulted in the death of three negroes here. Hammo Harris accused Waddell Wilson of having won unfairly and demanded a return of his money.

Wilson refused and Harris started shooting. Wilson returned the fire and Lewis Perryman, Wilson and Harris were killed.

A Limit.

Mrs. Henpeck (to her husband)—What would you do if I were to die? Henpeck—It would drive me crazy. Mrs. H.—Would you marry again? Henpeck—I don't think I would be as crazy as that.

ATTEMPTS TO KILL WIFE

St. Paul Man Then Ends His Life With Poison.

St. Paul, July 20.—N. J. Ruplinger, twenty-seven years old, is dead and his wife, Irene, twenty-six years old, is in a serious condition at the City hospital as the result of a quarrel. Ruplinger, following the quarrel, is alleged to have struck his wife on the forehead with a baton. Then he drank two ounces of carbolic acid. He died before the police ambulance arrived.

Mrs. Ruplinger will recover, it was said at the City hospital.

HORSES RUN AWAY AND SCARE KILLS
Man Riding to Grave.

Warren, N. Y., July 20.—Frederick Gauthier, sixty-four, of Storm King, Putnam county, dropped dead as the result of fright when the horses of a funeral coach in which he was riding to the grave of his nephew, Louis Brevoort, ran away.

Lawrence McCartney, the driver, was unable to restrain them and the hack crashed into a telegraph pole. When the driver opened the door he found Gauthier lying dead on the floor.

UNVEILED AT WASHINGTON

Washington, July 20.—A heroic marble statue to former Governor George W. Glick of Kansas was unveiled in Statuary hall here.

While a delegation of Kansas people and scores of tourists listened the first and only Democratic governor of that state before the present administration was eulogized. Senator Thompson, Representative Campbell and several other members of the Kansas delegation in congress spoke.

BRAINERD WINS BOTH GAMES

Defeats International Falls in Saturday Game 16 to 0, With Victor Pitching

SECOND GAME IS WON 5 TO 4

Graves Pitched on Sunday, Receiving Superb Support on All Sides, Big Crowd Present

Braierd, in its tour into the north country to International Falls, swept everything before it and defeated the border town 16 to 0 in the Saturday game and 5 to 4 in the Sunday game, which had the larger attendance present.

On Saturday International Falls was shut out completely by Braierd, while the champions of Central Minnesota hammered them to pieces and outplayed them at all points, rolling up the terrific score of 16 to 0. Victor pitched air tight ball. Braierd's support was there at all times, perfect in fielding grounders, flies or anything else at any time or place.

The manager of the International Falls team remarked to D. A. Peterson, "manager" of the Braierd nine: "You have the strongest team that we ever played against. We had no idea that you have such a nine. We defeated the Winnipeg league team, but you are stronger than they are."

The Sunday game played before a larger crowd, was also a pitcher's battle. For International Falls was Ursella, a noted athlete and for the Braierd team was Joe Graves, the Walker Chippewa Indian hurler. He kept the border town well in hand. In the eighth two scores rumbled over the plate and Manager Peterson started warming James Alderman. That stiffened the backbone of Graves and he told Peterson that they would never get ahead of him. He went back to the mound and struck out some more. Larson, as a diversion, hammered out a home run.

The Sunday game score was:

Give it to the Children

Finest physic in the world for children. They love to take it—it tastes like lemonade. It is mild—and suits their sensitive organs. It is thorough—and keeps their systems cleansed, sweet and wholesome. It does the same for grown-ups, too. An ideal laxative. H. P. Dunn—Adv.

THE SELFISH LIFE.

A man who lives entirely to himself becomes at last obnoxious to himself. I believe it is the law of God that self centeredness ends in self nausea. There is no weariness like the weariness of a man who is wearied of himself, and that is the awful Nemesis which follows the selfish life.—J. H. Jowett.

SPEEDWELLS BLANK DRUMMERS

U. C. T. Council Team of No. 545 Defeated 7 to 0 by the Fast Speedwells

The United Commercial Travelers team of Braierd Council No. 545 was defeated 7 to 0 by the fast Speedwells, who showed themselves veritable speed merchants in running bases and taking full advantage of the nine errors made by the Drummers.

"If you fellows wouldn't make so many errors," said one admirer to his drummer friends.

"Yes," said the U. C. T. man, "if we played a better game we might win."

Coupled with the errors, the hot smoke ball of Butke, who fanned 10 helped to wipe out the travelingmen. Anderson, of the Drummers pitched gilt edge ball, but poor support in the pinches robbed him of a victory. He struck out 8 men and allowed but 5 hits, and that is going some for a man who sells goods on the road and does not pitch regularly. Higbe was in right field and towards the close of the game used a bicycle to ride to and from his position. An ambulance manned by Ed Anderson, secretary-treasurer of the U. C. T., was on hand to take disabled U. C. T. men to their homes.

PICNIC WAS SUCCESS

Union Services of Churches Served by Rev. Hougstad Largely Attended at Pequot

The union services of the churches served by Rev. C. Hougstad, pastor of the Norwegian-Danish Lutheran church of Braierd, were largely attended Sunday at Pequot and the special train on the Minnesota & International railway, which left Braierd early in the morning and returned in the evening, was filled to capacity.

About 130 went to Pequot and 190 returned, the additional number being lake resorters and others who took advantage to return to Braierd on the special.

At Pequot Ludwig Mathieson and others had automobiles and they conveyed the visitors to points of interest about town and the lakes of the near by country. There were regular church services at the fair grounds in the morning at which Rev. Hougstad preached. Most of those present attended the picnic dinner at the grounds while others visited the hotels at Pequot.

In the afternoon addresses were delivered by Rev. Hougstad and by Rev. Branscher of Pequot. There were songs by the Braierd and Pequot choirs. The Pequot people were very hospitable and solicitous for the comfort and enjoyment of all their numerous visitors and intent upon seeing that everyone had a good time. Their efforts were fully appreciated by the visitors.

There were present representatives from each of the churches served by Rev. Hougstad and these included Braierd, Pine River, Pequot, Motley and Long Lake.

CLOSE OF CONVENTION

Postal Clerks Visit Riverton and Enjoy Ride up Mississippi—Banquet in Evening

Shortly after the close of their business session in Braierd, the state convention of post office clerks embarked on the steamboat for a trip up the Mississippi river to Riverton and there they enjoyed a visit at the town and saw the Rowe mine of the Pittsburgh Steel Ore Co. in operation. The boat was held until after scheduled leaving time to enable the clerks to see the effects of two big explosions set off in the hard ore. There were two terrific blasts and then a pall of red iron dust settled on everything. Iron mines were something new for the convention people from the southern part of the state.

In the evening a fine banquet was served at the Iron Exchange hotel. Rev. G. P. Sheridan, president of the Chamber of Commerce was the toastmaster. Fine addresses were made and the evening was thoroughly enjoyed by the many present.

OLSON ON THE MOTORDROME

Art Olson, Young Braierd Harley-Davidson Rider, Rides Around the Cup

LARGE CROWD SEES HIM

Tried the Trick Three Times and then Gave an Exhibition at the Carnival Saturday

"See Artie Olson, your Braierd boy, ride at the motordrome! See Artie Olson! Your last chance!" yelled the man with the megaphone at the carnival motordrome. Bets were up that the young Braierd rider would tumble.

The receipts for the motordrome reached their highest figures Saturday evening at the carnival and the crowd which had previously seen Bobbie Gold, Reckless Russell and Hagar ride, came again to see what Artie Olson could do.

And Olson did it. He steamed around the cup-shaped track, half way from the top, and never tumbled. He tuned up his big eight horsepower Harley-Davidson, a stock machine of W. S. Lively, and the twin machine puffed around and never missed a cough.

Olson has been riding five years. His entire experience at the motordrome consisted of three trials and on Saturday night he negotiated the distance and even gave a friend the "high ball" as he whirled around. He did the best he could with the type of handle bars he had, as a road machine with its handlebars is not adapted to sharp turns like the short handle bars of the specially built track racers.

BRAINERD WINS BOTH GAMES

Defeats International Falls in Saturday Game 16 to 0, With Victor Pitching

SECOND GAME IS WON 5 TO 4

Graves Pitched on Sunday, Receiving Superb Support on all Sides, Big Crowd Present

Braierd, in its tour into the north country to International Falls, swept everything before it and defeated the border town 16 to 0 in the Saturday game and 5 to 4 in the Sunday game, which had the larger attendance present.

On Saturday International Falls was shut out completely by Braierd, while the champions of Central Minnesota hammered them to pieces and outplayed them at all points, rolling up the terrific score of 16 to 0. Victor pitched air tight ball. Braierd's support was there at all times, perfect in fielding grounders, flies or anything else at any time or place.

The manager of the International Falls team remarked to D. A. Peterson, manager of the Braierd nine: "You have the strongest team that we ever played against. We had no idea that you have such a nine. We defeated the Winnipeg league team, but you are stronger than they are."

The Sunday game played before a larger crowd, was also a pitcher's battle. For International Falls was Ursella, a noted athlete and for the Braierd team was Joe Graves, the Walker Chippewa Indian hurler. He kept the border town well in hand. In the eighth two scores rumbled over the plate and Manager Peterson started warming James Alderman. That stiffened the backbone of Graves and he told Peterson that they would never get ahead of him. He went back to the mound and struck out some more. Larson, as a diversion, hammered out a home run.

The Sunday game score was:

SPEEDWELLS BLANK DRUMMERS

U. C. T. Council Team of No. 545 Defeated 7 to 0 by the Fast Speedwells

The United Commercial Travelers team of Braierd Council No. 545 was defeated 7 to 0 by the fast Speedwells, who showed themselves veritable speed merchants in running bases and taking full advantage of the nine errors made by the Drummers.

"If you fellows wouldn't make so many errors," said one admirer to his drummer friends.

"Yes," said the U. C. T. man, "if we played a better game we might win."

Coupled with the errors, the hot smoke ball of Butke, who fanned 10 helped to wipe out the travelingmen. Anderson, of the Drummers pitched gilt edge ball, but poor support in the pinches robbed him of a victory. He struck out 8 men and allowed but 5 hits, and that is going some for a man who sells goods on the road and does not pitch regularly. Higbe was in right field and towards the close of the game used a bicycle to ride to and from his position. An ambulance manned by Ed Anderson, secretary-treasurer of the U. C. T., was on hand to take disabled U. C. T. men to their homes.

Most of those present attended the picnic dinner at the grounds while others visited the hotels at Pequot.

In the afternoon addresses were delivered by Rev. Hougstad and by Rev. Bramscher of Pequot. There were songs by the Braierd and Pequot choirs. The Pequot people were very hospitable and solicitous for the comfort and enjoyment of all their numerous visitors and intent upon seeing that everyone had a good time. Their efforts were fully appreciated by the visitors.

There were present representatives from each of the churches served by Rev. Hougstad and these included Braierd, Pine River, Pequot, Motley and Long Lake.

Startling Exclusive Improvements Mark the 1914 Harley-Davidson

Step-Starter—Selective Two-Speed—Double Brake Control—Double Control of Free Wheel—Folding Foot Boards—Ful-Floting Seat, and Other Improvements.

Step-Starter Starts Machine With Rider in the Saddle and Both Wheels on the Ground

THE 1914 Harley-Davidson is marked for the innovations it presents. Innovations, but not experiments, for every feature has stood the test of months and months of hard road service. The Step-Starter—an exclusive feature—furnishes the only practical method of starting a motorcycle. If the rider accidentally stalls the motor it is no longer necessary to hold up traffic on a crowded street, find a level place in the road, get off in the mud, and set the machine on the stand to start it. A downward push on either pedal and the motor again begins to throb.

Selective Type of Two-Speed

The Harley-Davidson selective type of two-speed has proven itself to be exceptionally reliable, extremely simple and wonderfully efficient. Its housing inside the rear hub, thus avoiding dust, dirt or damage. Its speeds are selective and the rider can shift from low to high or high to low or to neutral at any time whether the machine is standing still or in motion.

Double Brake Control

The new Harley-Davidson Band Brake may be operated by a foot lever on the right foot board or by back pedaling on either pedal.

Double Control of Free Wheel

Free Wheel Control is operated by hand or foot. With his hands on the handle-bars the rider has complete control of the 1914 Harley-Davidson.

Folding Foot Boards

The Harley-Davidson foot boards are unusually long permitting a great variety of positions according to the height of the rider. This overcomes the great objection to the ordinary type of foot boards built only to fit the ordinary man. With the Harley-Davidson foot boards whether the rider is tall or short he is not forced to assume an uncomfortable position.

Ful-Floting Seat

For the third successive year the Ful-Floting Seat is standard. This patented device floats the weight of the rider between two concealed springs, assimilating all jares and vibration due to rough roads.

Other Refinements

Over thirty desirable improvements are noticeable on the new Harley-Davidson.

Call, phone or write for advance announcement describing in detail the many new features of the 1914 Harley-Davidson

Won With Whips.

According to Herodotus, while the Scythians were away on a long campaign their slaves took the opportunity to rebel and seize all their masters' property. The latter on their return promptly attacked them, but were continually defeated until at last one of them hit on the brilliant idea of attacking the slaves with whips only. That, he said, would remind them of their origin and so cow them that they would never dare to stand. The Scythians followed his counsel, and it fell out as he had predicted. When the slaves beheld their masters riding down upon them flourishing the terrible knotted whips they knew so well they threw down their arms and fled.

Double Trouble.

A bigamist is a man who is so fond of looking for trouble that he looks for it twice.—Pelican.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it incurable, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Cheney & Co., Toledo, O. Sold by Druggists. 76c.

Seating the Bakers.
"Oh, I am almost tired to death!" said the woman who spends half her time addressing club meetings. "Our political economy club has been in session all day passing resolutions and drawing up petitions demanding a law regulating the price of bread. Only think! Three dollars' worth of flour costs, when baked into bread, \$13. It's outrageous. We'll soon all be bankrupt. The bakers must be made to feel the power of the law. You should have been at the meeting."
"I couldn't come, I was too busy," said the calm faced woman.
"Busy on a club day? What at?"
"Baking bread," said the calm faced woman.—New York Times.

TO SAVE EYES

Is the Object of This Free Prescription—Try It if Your Eyes Give You Trouble.

Thousands of people suffer from eye troubles because they do not know what to do. They know some good home remedy for every other minor ailment, but none for their eye troubles. They neglect their eyes, because the trouble is not sufficient to drive them to an eye specialist, who would, anyway, charge them a heavy fee. As a last resort they go to an optician or to the five and ten-cent store, and often-times drive their eyes to an eye specialist after a few weeks' use. It is good for the eyes, and contains no ingredient which would injure the most sensitive eyes of an infant or the aged. Any druggist can fill this prescription promptly. Try it and know for once what real eye comfort is.

5 grains Optona (1 tablet).
2 ounces Water.

Use three or four times a day to bathe the eyes. This prescription and the simple Opton system keeps the eyes clean, sharpens the vision and quickly overcomes inflammation and irritation; weak, watery, overworked, tired eyes and other similar troubles are greatly benefited and often-times cured by its use. Many reports show that wearers of glasses have discarded them after a few weeks' use. It is good for the eyes, and contains no ingredient which would injure the most sensitive eyes of an infant or the aged. Any druggist can fill this prescription promptly. Try it and know for once what real eye comfort is.

THE question sometimes is asked, "Why don't you perfume Ivory Soap for bath and toilet purposes?"
Our reply is this: "We think that the delightful, natural odor of the high grade materials we use should not be concealed by a stronger, artificial perfume. We think Ivory's natural odor is more pleasing than any perfume. It is a fragrance that suggests purity and cleanliness, a fragrance that people like from the beginning and never tire of."
If you will use Ivory Soap for your bath and toilet we think you will understand what we mean by a clean fragrance.

By Your Lathe
You need skill of hand, a keen eye and steady nerves, and when you get a crackerjack chew or smoke you know how it helps all three. Nothing like tucking good old **PEERLESS** into your pipe, or taking a man's size chew, to hold you steady and put gimp into the job.
PEERLESS
Long Cut Tobacco
is a substantial, satisfying, rich tobacco—made for *real* men who like the honest taste of *real* tobacco.
Many men cannot get satisfaction out of insipid mixtures, any more than they can make a meal off of marshmallows. You go to **PEERLESS** to satisfy your tobacco hunger, just as you go to a beef-steak to satisfy stomach hunger.
We make **PEERLESS** out of pure Southern Kentucky leaf. We age it three to five years—so as to make it rich, ripe and mellow—naturally sweet, juicy and pleasing. It's got the snap and taste to it.
For over fifty years the big, two-fisted men that have "built the country" have used **PEERLESS**, because it is the one tobacco that *always* satisfies them. You try **PEERLESS** for a week, and you'll always keep it on the job. Sold everywhere in 5c packages.
Other sizes, 10c, 20c and 40c Packages, and 45c Tin Packs.

Startling Exclusive Improvements Mark the 1914 Harley-Davidson

Step-Starter—Selective Two-Speed—Double Brake Control—Double Control of Free Wheel—Folding Foot Boards—Ful-Floting Seat, and Other Improvements.

Step-Starter Starts Machine With Rider in the Saddle and Both Wheels on the Ground

THE 1914 Harley-Davidson is marked for the innovations it presents. Innovations, but not experiments, for every feature has stood the test of months and months of hard road service. The Step-Starter—an exclusive feature—furnishes the only practical method of starting a motorcycle. If the rider accidentally stalls the motor it is no longer necessary to hold up traffic on a crowded street, find a level place in the road, get off in the mud, and set the machine on the stand to start it. A downward push on either pedal and the motor again begins to throb.

Selective Type of Two-Speed

The Harley-Davidson selective type of two-speed has proven itself to be exceptionally reliable, extremely simple and wonderfully efficient. Its housing inside the rear hub, thus avoiding dust, dirt or damage. Its speeds are selective and the rider can shift from low to high or high to low or to neutral at any time without the machine standing still or in motion.

Double Brake Control

The new Harley-Davidson Band Brake may be operated by a foot lever on the right foot board or by back pedaling on either pedal.

Double Control of Free Wheel

Free Wheel Control is operated by hand or foot. With his hands on the handlebars the rider has complete control of the 1914 Harley-Davidson.

Call, phone or write for advance announcement describing in detail the many new features of the 1914 Harley-Davidson

W. E. LIVELY, Brainerd, Minn.

Folding Foot Boards

The Harley-Davidson foot boards are unusually long permitting a great variety of positions according to the height of the rider. This overcomes the great objection to the ordinary type of foot boards built only to fit the ordinary man. With the Harley-Davidson foot boards whether the rider is tall or short he is not forced to assume an uncomfortable position.

Ful-Floting Seat

For the third successive year the Ful-Floting Seat is standard. This patented device floats the weight of the rider between two concealed springs, assimilating all jars and vibration due to rough roads.

Other Refinements

Over thirty desirable improvements are noticeable on the new Harley-Davidson.

Won With Whips.

According to Herodotus, while the Scythians were away on a long campaign their slaves took the opportunity to rebel and seize all their masters' property. The latter on their return promptly attacked them, but were continually defeated until at last one of them hit on the brilliant idea of attacking the slaves with whips only. That, he said, would remind them of their origin and so cow them that they would never dare to stand. The Scythians followed his counsel, and it fell out as he had predicted. When the slaves beheld their masters riding down upon them flourishing the terrible knotted whips they knew so well they threw down their arms and fled.

Double Trouble.
A bigamist is a man who is so fond of looking for trouble that he looks for it twice.—Pelican.

There is more Cataract in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it incurable, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven cataract to be a constitutional disease, and therefore requires constitutional treatment. Hall's Cataract Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Cheney & Co., Toledo, O. Sold by Druggists. "Take Hall's 100 Pills for constipation."

Beating the Bakers.

"Oh, I am almost tired to death!" said the woman who spends half her time addressing club meetings. "Our political economy club has been in session all day passing resolutions and drawing up petitions demanding a law regulating the price of bread. Only think! Three dollars' worth of flour costs, when baked into bread, \$13. It's outrageous. We'll soon all be bankrupt. The bankers must be made to feel the power of the law. You should have been at the meeting."

"I couldn't come, I was too busy," said the calm faced woman.

"Busy on a club day? What at?"

"Baking bread," said the calm faced woman.—New York Times.

THRIFT.

Thrift does not require superior courage nor superior intellect nor any superhuman virtue. . . . It needs no fervent resolution, but only a little patient self denial. Begin it its device! The more the habit of thrift is practiced the easier it becomes.—Samuel Smiles.

TO SAVE EYES

Is the Object of This Free Prescription—Try It if Your Eyes Give You Trouble.

Thousands of people suffer from eye troubles because they do not know what to do. They know some good home remedy for every other minor ailment, but none for their eye troubles. They neglect their eyes, because the trouble is not sufficient to drive them to an eye specialist, who would, anyway, charge them a heavy fee. As a last resort they go to an optician or to the five and ten-cent store, and oftentimes get glasses that they do not need, or which, after being used two or three months, do their eyes more injury than good. Here is a simple prescription that every one should use:

5 grains Optona (1 tablet),
2 ounces Water.

Use three or four times a day to bathe the eyes. This prescription and the simple Optona system keeps the eyes clean, sharpens the vision and quickly overcomes inflammation and irritation; weak, watery, overworked, tired eyes and other similar troubles are greatly benefited and oftentimes cured by its use. Many reports show that wearers of glasses have discarded them after a few weeks' use. It is good for the eye and contains no ingredient which would injure the most sensitive eyes of an infant or the aged. Any druggist can fill this prescription promptly. Try it and know for once what real eye comfort is.

THE question sometimes is asked, "Why don't you perfume Ivory Soap for bath and toilet purposes?"

Our reply is this: "We think that the delightful, natural odor of the high grade materials we use should not be concealed by a stronger, artificial perfume. We think Ivory's natural odor is more pleasing than any perfume. It is a fragrance that suggests purity and cleanliness, a fragrance that people like from the beginning and never tire of."

If you will use Ivory Soap for your bath and toilet we think you will understand what we mean by a clean fragrance.

By Your Lathe

You need skill of hand, a keen eye and steady nerves, and when you get a crackerjack chew or smoke you know how it helps all three. Nothing like tucking good old PEERLESS into your pipe, or taking a man's size chew, to hold you steady and put gimp into the job.

PEERLESS Long Cut Tobacco

is a substantial, satisfying, rich tobacco—made for *real* men who like the honest taste of *real* tobacco.

Manly men cannot get satisfaction out of insipid mixtures, any more than they can make a meal off of marshmallows. You go to PEERLESS to satisfy your tobacco hunger, just as you go to a beef-steak to satisfy stomach hunger.

We make PEERLESS out of pure Southern Kentucky leaf. We age it three to five years—so as to make it rich, ripe and mellow—naturally sweet, juicy and pleasing. It's got the snap and taste to it.

For over fifty years the big, two-fisted men that have "built the country" have used PEERLESS, because it is the one tobacco that always satisfies them. You try PEERLESS for a week, and you'll always keep it on the job. Sold everywhere in 5c packages.

Other sizes, 10c, 20c and 40c Packages, and 45c Tin Pails.
